SHAFFERS	1 50	12 00

PRICE OF GRAPE CUTTINGS SENT ON APPLICATION.

THE UNRIVALED RED JACKET GOOSEBERRY.

When I introduced this new Gooseberry it was with entire confidence that it possessed the best foliage and was the most vigorous in growth of any gooseberry in America; also that it was a great cropper and fruit of very best quality. Although a pure native American (no English blood) it required time to get reports from other states where it was being tested. The most important question to be decided was whether it would in other localities be afflicted with that curse, MILDEW, which, in America, affects not only all English Gooseberries, but all tainted with English blood. We knew it was all right as to MILDEW in our State but we are agreeably surprised to hear so much good from such a *wide extent of territory*. Our plants fruited this year and the fruit readily sold at the rate of $700.00 per thousand plants.

The markets are groaning for want of Gooseberries. But few are to be had because fruit growers wasted their time and money on the Industry and other kinds containing English blood. As for the Industry I have long considered it worthless in America and not relishing the friction it caused between me and my customers I have declined to handle or sell it for nearly ten years and long ago consigned my Industry stock plants to the brush heap.

The reports we have speak for themslves and show that the Red Jacket might have appropriately been named the MILDEW PROOF or ANTI-MILDEW COOSEBERRY. We have herein room for only a few of these reports but have them by the hundred and propose to issue a four page circular of testimonials at once, to be furnished at cost with the name and place of business to the Nurseryman ordering them. We will send samples of these circulars and price to those who so request. We will also furnish to our customers one plate of Red Jacket for each plate book free.

We have a fair stock of Red Jacket plants and meet the times by cutting our last Spring's price right in two. These plants will all be wanted.

Reports from Red Jacket.

From Dr. T. H. Hoskins, Newport, Vt., the most eminent Horticulturist of Vermont.

Dear Mr. Josselyn—It affords me pleasure to be able to say that Red Jacket is proving to be all and more than you and I hoped. Strong grower, quite free from mildew or any other sign of fungus, bushes have made two feet or more growth. The big branches make Red Jacket very easy to pick, just the reverse of Downing in this respect. Sufficiently late to make a good succession to earlier varieties and making much longer season.

Yours Truly, T. H. Hoskins.

From Benj. G. Smith, Treasurer of American Pomological Society.

Dear Friend:—Red Jacket has performed well, is entirely free from mildew and very vigorous in growth.

Yours Truly, B. G. Smith, Cambridge, Mass.

From Aaron Rhodes, the most successful fruit grower on the Hudson River.

Dear Sir:—The Red Jacket is grand, large berry, no mildew, big bearer. Yours Truly, Aaron Rhodes, Highland, N. Y.

Continued on Next Page.

Dear Sir:—The Red Jacket plants have borne abundantly of large nice fruit such as we do not see in Rochester markets, is entirely free from mildew. O. J. Weeks, West Webster, N. Y.

Geo. S Josselyn, Sir:—I believe the Red Jacket to be the only variety that is free from mildew and therefore the only one that pays to plant in the Northwest. The fruit is A I. vigorous, stocky grower and very productive.

Yours Truly, A. Clark Tuttle, Baraboo, Wis.

Dear Sir:—I have endeavored to ascertain the merits of the Red Jacket in three different States that I visit and it is universally reported to me as the very best in size, quality of fruit, health of plant and general value and no account of mildew. Homer Shepard, Somerville, N. Y.

Dear Sir:—Red Jacket from you is entirely free from mildew. Fruit as large as the largest English sorts and superior and plants strong growers. Am fruiting nine sorts of English Gooseberries including Industry. All more or less mildew and plants are poor growers.

Yours, Hiram Bowhall, Painesville, Ohio.

Dear Sir:—I find Red Jacket a very promising variety, fruit of large size and good quality. Have fruited it two seasons and it has not shown a trace of mildew. D. M. Moore. Ogden, Utah.

Dear Sir:—We find the Red Jacket to be all you have claimed for it and we are much pleased with it.

P. M. Augur's Sons, Middlefield, Conn.

Dear Sir:—I think you have "struck it" on Red Jacket. They certainly did well with me and my others mildewed. I think I shall always have Gooseberries and fine ones too after this.

J. H. Butler, Peekskill, N.Y.

Dear Sir:—I planted Red Jacket in the Spring of 1892. They fruited this year and I never saw anything in the Gooseberry line which equals it. I have almost every kind of Gooseberry but am going to discard all other kinds and plant Red Jacket as it is *the* Gooseberry. It is perfectly free from mildew, very large, fine fruit, strong grower.

Herman Fesenfeld, Black Earth, Wis.

Mr. Josselyn, Dear Sir:—The Red Jacket has proved with me a most excellent berry, very vigorous grower, heavy bearer and free from mildew. Fruit large and of good flavor. In my opinion the most profitable Gooseberry yet introduced. Martin Pfaffman, Wollaston, Mass.

My Dear Sir:—Our experience with Red Jacket so far is very favorable and we think it much superior to Industry, being free from mildew. We think it a very valuable acquisition on that account alone.

E. W. Reid, Bridgeport, Ohio.

Dear Sir:—I think Red Jacket the winning Gooseberry. Mine stand close to some Industry but Red Jacket are much more vigorous and healthy than that variety. Henry Steinfort, Watertown, Wis.

Ohio Experimental Station.

Dear Sir:—The Red Jacket plants you sent me have made a good healthly growth and fine large berries were reported to me. I am favorably impressed with the variety, especially because of its fine healthy growth,

W. J Green, Wooster. Ohio.

Michigan Agricultural Experiment Station.

Dear Sir:—The Red Jacket received from you has now fully recovered from the unprecedented wet Spring and Summer of 1892 and is making a vigorous and healthly growth entirely free from mildew. T. T. Lyon.

Continued on Next Page.

Dear Sir:—The Red Jacket has made a vigorous growth without a sign of mildew. The fruit this year we consider of the best quality and we have seven kinds of Gooseberries. Augustine Lane, Springfield, Vt.

Dear Sir:—Red Jacket is certainly the Queen of Gooseberries. Perfectly hardy, vigorous, fruit of excellent quality and absolutely free from mildew. I unhesitatingly recommend it to all. W. S. Hull, Ithaca, N.Y.

Dear Sir:—The Red Jacket is a No. 1 grower and a good bearer. The fruit is large and it does not mildew.

Phil. Strubler, Naperville, Ills.

Dear Sir:—The Red Jacket have given me the best possible satisfaction. They have continued to grow the entire season and yielded a large quantity of fruit superior to anything else on my grounds. Have watched them closely and fail to find any trace of mildew either in fruit or foliage. Shall dig up my Industry which is practically worthless with us as it mildews so much it will neither grow nor fruit.

C. L. Longsdorf, Flora Dale, Pa.

Dear Sir:—We admire the Red Jacket for its healthy persistent foliage and perfect freedom from mildew. It is a good grower, fruit is handsome and good. Edwin Allen, New Brunswick, N. J.

Dear Sir:—As to the Red Jacket, in the first place, they do not mildew. In the second place, they are the most thrifty growers. And in the third place, they are the finest Gooseberry I ever saw.

J. P. Troxel, New Springfield, Ohio.

Dear Sir:—The Red Jacket plants are making a clean healthy growth and show no evidence of mildew. The indications are that they will pass through our trying climate without injury from mildew.

Wm. Parry, Parry, N. J.

Dear Sir:—Red Jacket has done finely. Yesterday we picked the first berries, as large if not larger than strawberry tomatoes. It is healthy and grows well. J. H. Ingalls, Lexington, Mass.

Dear Sir:—I congratulate you for furnishing such a large, fruitful and healthy gooseberry to your patrons as the Red Jacket. With me it is thrifty, bears prolific of the very largest and finest flavor of my several kinds of gooseberries and does not mould or mildew like the Downing.

J. J. Southwick, Darby, Montana.

Dear Sir:—The Red Jacket does remarkably well with me—plant is strong and healthy, (no mildew,) fruit of good color and flavor.

J. J. Toole, Payette, Idaho.

Dear Sir:—The Red Jacket is the best growing gooseberry I have of any sort, clear of all ailments. I had Red Jacket fruit this year but none of any other kinds. John Sturdy, Vineland, Kan.

Dear Sir:—I am glad to be able to report that Red Jacket is unusually vigorous in growth and exceptionally free from mildew as compared with Industry, Triumph and other noted kinds. As I sold my Nursery last season am unable to speak of its fruiting qualities.

Wm. C. Strong, Waban, Mass.

Dear Sir:—The Red Jacket that I received from you have done well. Every one lived and made strong growth. The fruit this year exceeded our expectations, no mildew or indications of mildew.

C. A. Sweet, Pres. Third National Bank, Buffalo, N. Y.

TERMS AND PARTICULARS.

My *Grape Vine* and *Small Fruit Establishment* is *largest in the World*, therefore my facilities and conveniences for storing, packing and shipping are not equalled by any other firm.

My responsibility ceases on delivery of goods at railroad or express office.

My vines are warranted true to name, and of grades represented.

Should any stock not prove true to name, I will either refund the purchase money of same, or replace the stock with stock true to name free, but am not liable for further damages, and while I am exercising great care to prevent mixtures the above is to be a condition on which all stock is delivered.

All packing will be done neatly and with strict regard to the interest of the customer. Should any error occur, claim must be made immediately on receipt of goods by customer.

Purchasers will please give shipping directions always. In case no such directions are sent with orders, I will use my best judgment in the matter.

TERMS CASH.—Bankable notes for 30 to 60 days will be accepted from customers of satisfactory record or bank reference.

Fall accounts are due before Dec. 1st, when I draw at sight for any amounts due. Interest charged on all bills overdue.

For those who wish Vines shipped after November 1st for spring trade, I will accept bankable note due June 1st without interest.

All express or freight charges on goods or money must be paid by the customer. If goods are shipped C. O. D., one fourth the amount of bill must be sent with order.

I will send samples of vines at 100 rates with 6 cents postage on three one-year vines, and 9 cents postage on three two-year vines. I cannot do justice in samples unless I send three of each kind and grade wanted.

One year No. 2 vines, two-thirds the rate of No. 1. Two years No. 1½ vines, half way between prices of two-years No. 1 and one year No. 1. Three years No. 1, one half additional to price of two-years. I reserve the right, unless otherwise directed, to fill orders for one-year stock with two-years stock of same size. Also orders for two-years stock with one year stock, of size ordered.

We commence packing Oct. 1st. No charge for boxing or packing.
